### **DETAILED ACTION**

1. Applicant's amendment file on 11/26/2003 in response to Examiner's Office Action has been reviewed. The following rejections now apply.
2. Claims 1, 3, 5-12, 14-16 and 19-20 are pending for the examination.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 recites the limitation "the supply signal" in lines 1-2 of claim 5. There is insufficient antecedent basis for this limitation in the claim. The "the supply signal" is not mentioned in independent claim 3 but "the power supply signal" is mentioned in independent claim 3.

#### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002

Art Unit: 2182

do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Noji (U.S. Pat. No. 6,138,255).

As to claim 1, <sup>N</sup>~~Noji~~ teaches a semiconductor memory device (see fig. 2), comprising:  
at least one pad to receive at least one external signal (see fig. 2 elements 10S, 10 and col. 4 lines 7-29) ; and  
a mode set circuit electrically connected with the at least one pad to set input and output mode responsive to the at least one external signal (see fig. 2 and col. 4 30-65).

***Allowable Subject Matter***

6. Claim 5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

7. Claims 3, 6-12, 14-16 and 19-20 are allowable.

***Response to Arguments***

8. Applicant's arguments with respect to claim 1 has been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Art Unit: 2182

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
